

1st Interdisciplinary Workshop on Phonology and Dyslexia

8:30-9:15 Registration

9:15-9:30 Opening Remarks

9:30-10:30 Keynote by **Usha Goswami**

10:30-11:30 Talks

10:30 - 10:50 **Tamara Rathcke**

Towards a comprehensive account of rhythm processing issues in developmental dyslexia

10:50 - 11:10 **Kanad Madke**

Neural sampling of the speech signal by children with dyslexia

11:10-11:30 **Shauni Van Herck**

Neural synchronization to rise time cues and intervention in pre-readers at risk for dyslexia

11:30-12:00 **Break** 

12:00-13:00 Talks

12:00 - 12:20 **Jose Perez-Navarro**

Utterance-level temporal regularities in child-directed speech

12:20 - 12:40 **Emily Barnes**

Separating components of bilingual phonemic awareness: implications for bilingual assessment for dyslexia

12:40 - 13:00 **Marina Kalashnikova**

Maternal speech quality as a predictor of pre-school phonological abilities in children at- and not at-risk for dyslexia

13:00-14:30 **Lunch** 

14:30-15:30 Talks

14:30 - 14:50 **Sabrina Turker**

The role of the left temporo-parietal cortex for pseudoword processing: evidence from combined neuroimaging and brain stimulation

14:50 - 15:10 **Gwendoline Mahé**

Phonological priming in dyslexic adults: New insight from ERPs in a word naming task

15:10-15:30 **Anastasia Klimovich-Gray**

Semantic predictions in speech linked to better reading in dyslexia: an MEG study

15:30-16:30 Posters

16:30-17:30 Keynote by **Alan Yu**

17:30-17:45 Closing remarks
